## Amazon
### Summer 2017

<table>
<thead>
<tr>
<th>Please give a brief description of your duties.</th>
<th>What value do you feel you added to the organization during your internship?</th>
<th>Did this internship meet your expectations? Why or why not?</th>
</tr>
</thead>
<tbody>
<tr>
<td>I worked on implementing a research paper as part of an open source project, trained deep neural networks and conducted research.</td>
<td>I was the only undergraduate working on the team. I was working on the project with a lot of other people, but I did add a different way of thinking. I was the primary driver of my project, and ran experiments that I thought would be beneficial, after discussing with others.</td>
<td>The internship was more than I had expected. I learnt a great deal from it. Overall, it was a great learning curve for me.</td>
</tr>
</tbody>
</table>

**Would you recommend this internship to another student? Why or why not?**

I would definitely recommend this internship. It is great for people aspiring to get experience in machine learning and deep learning.

**If you could change one thing about your internship experience, what would it be and why?**

I wish I could have spent more time with my manager and mentor. They were kept very busy as there were many interns on the team.

**Please provide any additional information regarding your internship that you feel students should know.**

I really enjoyed working at Amazon, and learned a lot from it. It was one of the best learning experiences for me!
