What is “Let’s Get Started”

After you have settled into your office and lab, we will gather:

- To inspire each other to grow as researchers, teachers and fulfilled citizens of UT
- To inspire success
- To form a network of colleagues and friends across departments
Logistics:

- The program is piloted in the Spring of 2019 and offers workshops every spring semester and cohort building every fall semester.

- We will meet several times in the spring semester:
  - Each session will be 90 minutes long, from 8:30 AM - 10:00 AM.
  - If in person, breakfast will be offered.

- As a new faculty you are encouraged to participate in the program during your first two academic years at UT.
In the spring of 2020 our topics were:

1. Helping All Our Students Succeed - Big Ideas and Practical Strategies
   - Session hosted by Prof. Jordan Gerton, Visiting Prof in Department of Physics and a professor at the University of Utah

2. Strategies for Changing Times
   - Session hosted by Prof. Stephen Russell and featured a panel with associate deans in the CNS.
