In attendance:
Ruth Buskirk (UTeach/Mol. BIO)
Kathy Davis (M)
Andy Ellington (BCH)
Norma Fowler (Integrative BIO)
Wayne Gardner (MNS)
Nancy Hazen-Swann (HE)
Mary Kay Hemenway (AST)
Sacha Kopp (chair)
Stan Roux (BIO)
John Stanton (CH)

Guests:
Kay Jay (TXA); Kay Southworth (NTR); Lydia Steinman NTR)

Judith Quinney; Kim Williams

Absent:
Nigel Atkinson (Neuro BIO); Alan Cline (CS); Phil Morrison (PHY); Greg Shields (AST)

I. Course Inventory – All requests to change the course inventory were approved. The change in course inventory request for CH 372C was approved contingent upon addition of standards for letter grades.

  ➢ Kim will work with the departments to make sure all changes to the course inventory are submitted via the Registrar’s online system by the November 1 deadline.

II. Proposed legislative changes to the B.S. Chemistry degree. Addition of new upper-division chemistry courses expanding the list of courses that may be used to fulfill UD chemistry non-laboratory requirement. Addition of new organic sequence numbers.

  John Stanton presented the proposed changes to the Chemistry degree options.

  ➢ Approved by the committee.

V. Proposed legislative changes to the B.S. Human Development and Family Sciences degree. Addition of a Departmental Honors option.

  Nancy Hazen-Swann presented the proposed addition of the honors option.

  The new departmental honors option will offer new opportunities for talented students who seek a more individualized and challenging curriculum in human development and family sciences.
Approved by the committee with minor edits.
Kim will assist the department with editing the impact statement and catalog text.

VI. Proposed legislative changes to the B.S. Textiles and Apparel degree. Addition of an Honors option.

Nancy Hazen-Swann presented the proposed addition of the honors option.

Currently the Textile and Apparel Division is the only department or division within the College of Natural Sciences that does not offer a Dean’s Scholar Honors Option. This addition will bring Textiles and Apparel in line with the rest of the School of Human Ecology and College of Natural Sciences.

Approved by the committee.

VII. Proposed legislative changes to the B.S. Nutrition degree. Addition of a new departmental honors option.

Nancy Hazen-Swann presented the proposed addition of the honors option.

The new departmental honors option will offer new opportunities for talented students who seek a more individualized and challenging curriculum in nutrition.

Approved by the committee with minor edits.
Kim will assist the department with editing the impact statement and catalog text.

VIII. Core Curriculum Science and courses designed for non-science majors.
   a. Are these courses okay to count as electives in CNS degrees?
   b. Are these courses appropriate to count as electives in other majors?

Committee members were asked to discuss these questions with their departments and report back to the committee chair with their findings.

IX. Presentation of certificates of appreciation to Kathy Davis and Marty Shankland who are leaving the C&C committee after several years of excellent service and leadership.

The next meeting will be held on September 1, 2011.
