On March 25, the Texas State Board of Education takes up a question that biologists regard as settled. The Board’s answer will determine how evolution is taught in the state’s public schools for the next decade.

Are There Weaknesses in the Theory of Evolution?

Dr. Robert Koons, Department of Philosophy
and
Dr. Arturo De Lozanne, Department of Biology

Wednesday, March 25th 3PM-4PM
Texas Union Quadrangle Room, 3.304
• Open to all students, faculty and staff •

Sponsored by the Texas IP, the student-designed interdisciplinary plan for Liberal Arts and Natural Science majors
